Mr S Brady,
Dene Magna School
Mitcheldean
Glos.

5th July 2018

Dear Mr Brady,

I am writing to you on behalf of our companies to give Dene Magna our full support in response to your consultation to deliver 6th form provision in the Forest of Dean. We very much welcome the opportunity for local students to stay in the Forest of Dean to study at 6th form. Your plans will: add value to whole of the Forest of Dean and make us more marketable to the outside world, provide local employment, support the local economy, support the continued redevelopment of Cinderford, and provide high quality local provision for our students. As a STEM business we are particular pleased to have Mathematics and Science provision at 6th form in the local area. The Forest of Dean has a large number of STEM businesses which need to recruit, your provision will contribute to develop the local talent pool and help these businesses to grow.

Dene Magna has a proven track record of working in partnership within the local area which makes you well placed to provide the 6th form the Forest both needs and deserves.

We will be more than happy to support you in any way we can.

We wish you every success in this new venture and look forwards to joining you in the new college at the launch of your 6th form provision.

Yours sincerely
